

The inlingua[®] method

The secret of our pedagogical success

Our core strengths are the inlingua method and the inlingua material.

Language learning goals can be achieved quickly and effectively.

The method is supported by our dedicated team of trainers and employees, who create a favourable environment for successfully learning a language.

- Primary focus communication
 - inlingua learning material
 - Native speakers as trainers

OUR TRAINERS

Are native speakers or fully bilingual, they are highly experienced and they teach according to the principles of the inlingua[®] method. They are ambassadors both for their country and their culture.

NO TRANSLATIONS/NO DICTIONNARY

Just like children learning their mother tongue, the inlingua[®] method doesn't use translations. Translating and using the dictionary during classes slows down learning progress in the target language. Forget the old clichés of traditional learning by jumping straight into "total immersion".

CLOSED TEXTBOOKS

In order to concentrate on spoken language, most of the class takes place orally. Reading and writing take a back seat.

QUESTIONS AND ANSWERS

Our method is based on dialogue, which allows you to learn grammar rules through practice. Our trainers will guide your learning with the support of audio, video and online materials.

LEARNING THROUGH PLAY

From the beginning, taking an active and creative role in the target language will be a key element of your language training. Our trainers will often spontaneously invite you to play a game.

MID-COURSE AND FINAL ASSESSMENT

Only regular attendance will give you the desired results. We monitor your knowledge by assessing your level at the start of your classes, half-waythrough and at the end of your training. The certificate at the end of your training, as well as our teacher expertise, will provide you with proof that you have reached the objective set.

Our Advantages

- Emphasis on oral • International working atmosphere • Emphasis on tailor-made • Any course format
- Unique materials from our publishing house • Regular follow-up with reviews at the start, middle and end of training • A team of more than 30 trainers at your service • More than 15 languages taught

Included in our terms

- Written positioning test, oral audit Intermediate test (progression) End of training test (level reached) Attestation of participation, certificate of achievement Feedback of satisfaction from our participants
- Feedback of our participants
